

GCSE: ASK Yourself!

Subject: Geography

Unit: Coastal Landscapes in the UK

	Launching 1-2	Developing 3-4	Progressing 5-6	Mastering 7-9
 S skills				
	<p>I am beginning to use maps and aerial photographs. I can label diagrams. I am beginning to spell, punctuate and use grammar with reasonable accuracy.</p>	<p>I can use maps and aerial photographs. I am beginning to describe landscapes shown in OS maps and photographs. I can label diagrams. I spell, punctuate and use grammar with reasonable accuracy.</p>	<p>I can use and interpret maps and aerial photographs. I can describe landscapes shown in OS maps and photographs, e.g. contours, gradients, etc. I can label diagrams. I spell, punctuate and use grammar with considerable accuracy.</p>	<p>I can perform everything below independently and thoroughly: I can use and interpret maps and aerial photographs. I can describe landscapes shown in OS maps and photographs, e.g. contours, gradients, etc. I can label diagrams. I spell, punctuate and use grammar with consistent accuracy.</p>
 K knowledge				
	<p>I need to know the coastal processes of erosion, transportation and deposition. I need to know the characteristics of some landforms resulting from these coastal processes. I need to understand some of the benefits of different coastal management strategies.</p>	<p>I understand that coastal processes of weathering, mass movement, erosion, transportation and deposition take place but I only partially understand why. I understand the characteristics of some landforms and can explain their formation. I understand and can explain some of the costs and</p>	<p>I understand how and why the coastal processes of weathering, mass movement, erosion, transportation and deposition take place. I understand the characteristics of landforms and can explain their formation. I can do this with reference to an example of a coastline.</p>	<p>I understand how and why the coastal processes of weathering, mass movement, erosion, transportation and deposition take place. I understand the characteristics of landforms and can explain their formation. I can do this with reference to a detailed example of a coastline.</p>

		benefits of different coastal management strategies.	I understand and can explain the costs and benefits of different management strategies. I can do this with reference to an example of a coastal management scheme.	I understand and can explain the costs and benefits of different management strategies. I can do this with reference to a detailed example. Throughout my work I utilise key words.
