

Year 8: ASK Yourself!

Subject: Music
Unit: Film Music

	Launching	Developing	Progressing	Mastering
S kills				
	<p>I need to identify the effect music can have on film and to choose sounds and loops which fit with the images. I also need to be able create a simple leitmotif to represent a character or mood in the film.</p>	<p>I can recognise the main changes of scene and mood in a film and select a series of loops which support the images. I have created a leitmotif to represent a character or mood in the film.</p>	<p>I can identify the main hit points in a scene. I can create leitmotifs to represent characters and moods in the theme, changing and altering these as they develop.</p>	<p>I can create my own music and use loops to enhance and interpret the images of the film. I have successfully created leitmotifs to represent characters and moods, developing these appropriately as the film dictates.</p>
K nowledge				
	<p>I need to be able import video into GarageBand, put in markers and loops. I need to be able to create music to fit with selected film scenes.</p>	<p>I know the techniques necessary to select, copy and paste loops along with some very basic editing. I also know how to select and change instrumental sounds. I understand how to use sound to enhance the film scenes.</p>	<p>I know how to use loops, input my own work and then quantise it and set dynamic levels. I can use sound to create mood and enhance the film soundtrack.</p>	<p>I know how to use controllers and effects to audio tracks. I can export my work into another format. I can use musical techniques to enhance the film soundtrack and create mood.</p>
