

Summer School Funding Statement

Using the DfE Summer school money for 300 students we invited 600 students from Year 6 and Year 10. Ninety seven percent of the students that responded to our questionnaire said that they would want the opportunity to attend our summer school again next year.

The students benefited from many different sessions including:

- Maths
- English
- Wellbeing
- ICT
- Circus skills
- Sessions with the army
- Sessions making films
- Coping with stress and exam skills (Y10)

The total funding we were provided with was £37 805.95 paid for:

Staffing	£19,449.45
Resources	£ 7,961.50
Activities	£ 4,595.00
Catering	£ 5,800.00

We ran a week for each year group successfully as can be seen from the quotes from parents below:

"It was very beneficial, [he] was starting school with only 1 other person from his school so he was able to make friends which made the transition in Sept a lot easier..."

"...He honestly benefited from joining your summer school. I think it eased the pressure of not knowing anyone..."

"[She] had so much fun, and she absolutely loved it! ...This summer school initiative is just fantastic for children...I think what you did was absolutely amazing and I really really hope you continue it every year."
